ENTHUSIASTIC MEETING HELD

Montgomery County Makes Splendid Start Toward Raising Funds For Y. M. C. A.

The local War Work Council of the Army Y. M. C. A., of which Mr. John G. Winn is chairman, met at the Courthouse Monday afternoon and inaugurated a campaign to raise funds for the war work of the Army Y. M. C. A. in the trenches of Europe as well as in the cantonments of America. The campaign here is a part of the nation-wide effort this week to raise \$35,000,000 for this great cause. Kentucky's quota is \$150,000, of which \$3,500 has been apportioned to Montgomery county. President Wilson has designated the week of Nov. 11-19 as Army Y. M. C. A. Week and it is expected that the sum asked will be realized by next Monday.

A meeting was held here Saturday at which Dr. Ganfield, President of Center College, Danville; Secretary Wilcox, of the Y. M. C. A., and Mr. Andrews, an officer from the Y. M. C. A. camp at Camp Taylor, spoke.

At the meeting Monday, which was held for the purpose of organization, Sergeant Robt. Stoner and Private Elgin Evans, two Montgomery county boys, who were in the first draft contingent, were present, having been detailed by Gen. Hale, commanding at Camp Taylor for this particular work, and both made brief talks in behalf of the Army Y. M. C. A., outlining the great work the organization was doing for the American soldier, both at home and abroad, and extolling it as a camp necessity. Mr. Pierce Winn was elected treasurer of the local council and the following committees were selected to solicit subscriptions throughout the county this week, each member being urged to make a daily report to Treasurer Winn:

Mt. Sterling—R. G. Kern, J. Will Clay, B. F. Perry, Stanley O. Wood, Dr. J. A. Vansant, C. B. Patterson, A. S. Hart, J. O. Greene.

Grassy Lick—Dr. A. H. Robbins, Arch Mason, Henry L. Greene, John Stoffer, C. L. Dean.

Spencer—J. T. Coons, J. T. McCormick, Robert Lockridge, H. B. Duff, F. M. Fortune.

Levee—C. B. Hainline, Clay Fogg, L. B. Hadden.

Howard's Mill—Col. Gatewood, E. B. Quisenberry, Webb Blevins, Ewell Payne, James Mallory.

Stoops—Rex Hall, Robt. E. Tipton, Frank P. Boyd, Thos. N. Coons.

Sideview and Aaron's Run—Dr. J. K. Johnson, George Roberts, S. D. Hall, English Anderson, B. F. Mark. Camargo—A. L. Tipton, Ray Moss, Breck Conleton, R. T. Richardson, W. F. Horton.

Beans—M. A. Prewitt, E. R. Prewitt, Dan Prewitt, W. Lois Thompson, H. F. Howell.

These committees have been instructed to organize their precinct at once and solicit subscriptions. It is vitally necessary that the quota assigned to Montgomery be raised by next Monday.

At Monday's meeting, Mr. O. S. Bigstaff was the first to respond to Chairman Winn's appeal for donations, and led the list with \$100. Following is a list of donations up to the time of going to press, together with the amount given:

APPOINTED FUEL

ADMINISTRATOR

Mr. Stanley O. Wood, editor of the Mt. Sterling Gazette, has been appointed Chairman of the Federal Fuel Committee for Montgomery county. Mr. Wood has accepted the appointment and will immediately appoint the other members of the committee. It will be their duty to fix retail prices on coal sold in this county and to keep the government informed as to the fuel conditions existing here.

XMAS FOR SOLDIER BOYS.

A movement is on foot to see that every boy from the city and county now stationed at one of the army camps is remembered at Xmas time. Several ladies have the matter in charge and invite the hearty cooperation of everyone. Remember this may be the last Xmas many of our boys will see so why not make it a most pleasant one.

WILL EXAMINE THE CHILDREN

School Board Passes Rule to Have Medical Examination at Public Schools.

Probably the most advanced step taken on behalf of the local board in many years was the order of the Board of Education and the City Board of Health that all the children attending the school should be carefully examined and reports be sent to parents or guardians.

It is recognized that it is a function of the school to care for the physical, as well as the intellectual well-being of the children and the order for medical examination is in keeping with the practices existing in the best schools of the land.

All of the physicians of the city have agreed to co-operate with the school authorities and the examinations will be made as soon as all arrangements can be completed.

Each child will be examined as to its general health, the teeth will be examined and the eyes, by men recognized as thoroughly competent to do so, a complete record will be kept of each examination and filed in the office of the Superintendent and a copy made and sent to the parent stating what, if any, physical defects or ailments are found. The matter of treatment is left entirely to the parent and the family physician. In cases where financial conditions will not permit of proper treatment the Public Health Nurse should be consulted and arrangements may be made whereby the case will receive attention.

By means of this examination parents may be advised of some error in vision, of decaying teeth, or some ailment which, if taken in time, can easily be corrected, but if allowed to continue and become more aggravated would result in permanent injury to the child. Cases of any disease which is in any way infectious may be checked and thus protection thrown around all of the children since the close association both in class room and on the play grounds make it difficult to check any disease unless discovered in time and the cases isolated.

When the records are sent to the parent they are requested to report back to the school authorities what will be done with the case, where treatment has been recommended, so that accurate record may be kept of each child for future reference.

It is hoped that all patrons will co-operate with the medical profession and the school in this worthy undertaking for the good of the people of our city.

WILL SOON HAVE COAL.

The coal shortage in this city has been the cause of much concern for the past few weeks but Mr. I. F. Tabb, a local dealer told us Monday that he had had the good luck of picking up 20 cars of coal that is now in transit and should arrive within the next few days. This consignment is in addition to his regular consignments and should relieve the present famine for a time at least. We are glad to note the coal dealers of this city are not disposed to take advantage of the famine but are selling at reasonable margins above cost.

WILL JOIN ARMY

Mr. William Enoch left last week for Chicago, where he will enter the University and take a special training course to fit himself for some special work in the United States Army. Mr. Enoch is an extremely bright young man and will no doubt secure some good appointment.

MISS SWEENEY SPEAKS HERE

Talented Lexington Woman Addressed Large Audience at Christian Church.

On last Friday, in a speech made before "The History Club," Miss Mary E. Sweeney, who has honored Kentucky by serving on the Food Commission, with Mr. Hoover, sent the message our women have needed, straight from her heart to the hearts of all who heard her. In her magnetic manner, her convincing argument, we were told that we women in concerted effort must refute Germany's proud boast—"that a loose woven democracy cannot stand against a close woven autocracy."

We are asked to do so little—as little as this—to use two teaspoons less of sugar, two teaspoons less of lard and two-thirds of a cup of flour less each day; To have a wheatless day, thus bringing our Kentucky-corn bread into "favor" once more; A meatless day—but on this day we can have chicken, turkey, game, any part of the beef, mutton or pork that cannot be shipped; because the beef, mutton and pork can be packed and shipped to the Allies and our own soldiers. We can still use all the molasses, potatoes, raisins, dates, fruits, peas, beans, cereals, milk, cheese, eggs, we choose.

To an indignant protest why we should send our flour to France?—because the meal does not ship well, and they have no mills to grind the corn.

Miss Sweeney asks that the housewife who has used one hundred pounds of flour in a month make this flour last six weeks by the substitution of cornbread.

By the saving of two cups of flour to a person we will release two million pounds of flour. Potatoes are highly recommended.

The wounds of soldiers do not properly heal unless the soldier's rations contain a small amount of fat. The children of a school in New York City were told to bring to school the fat that was thrown away at their homes that day. They did, and a cake of soap was made for each New York soldier.

Garbage inspection has proven how nobly our women have responded to the clarion call that there shall be nothing wasted. A nine and two-tenths saving was shown.

We have no hope of any immediate end to this great struggle, we do not want an ignoble peace. The world of our friends need our food more than they need our money. The men of England and France fighting, the frail hands of their women fighting against starvation.

France was without sugar, the United States went on her knees to Cuba, got forty thousand pounds added to this, sixty thousands pounds, sent a ship freighted with many hopes for its safe arrival. But France, as the ship reached its destination, had information that the United States had no sugar and France sent back forty thousand pounds.

Russia entered this war with fourteen million soldiers. She now has two million men in her army.

The French men in the trenches, the French women are drawing plows, one driving, one, two, sometimes three, pushing the plow. Fifteen hundred women in one county of England are trying to raise something to eat, the men all on the fighting line. Along the coast of Scotland not an able-bodied man is left.

Twenty million army men needing food and having to be furnished a

pair of high shoes each month. Water standing in the trenches and tuberculosis claiming its thousands of these exposed, underfed men.

The French women have a half cup of flour a week, four ounces of meat a week, one egg a week. No power on earth can keep the Frenchman in the trenches if his wife and children are starving.

America, Mr. Hoover says, has accomplished as much in six months as Germany in a year, as much as England in two years toward food conservation.

The American housewife can, by co-operation, self-control, avoid rationing by the police.

Miss Sweeney recommended and assisted in the standardization of our bread. She closed with an eloquent appeal to the womanhood of America, to whom the believing women of France are looking for help.

In the hands of our women she rested the case of this world war.

MARRIED AT ASHLAND

Mr. Tom Henry William, of this city, and Miss Irene Gibson, of Ashland, were married at the home of the bride's parents Monday morning, Rev. Mr. Fite, of the Christian Church, officiating.

Mr. William, who is a son of Mr. John William, of this city, is a splendid young man of excellent business qualifications and has been connected with the Adams Express Co. for several years. His bride, while known to but few of our people, is said to be a most charming and lovely girl. The young people left for a few days' visit to Cincinnati and will also visit here before returning to Ashland, where they will make their home. Misses Hattie and Edith William, of this city, attended the wedding. The Advocate joins friends in extending best wishes.

SMALLPOX HERE

It is reported that there are several cases of smallpox in the city as well as a number of cases of scarlet fever. The physicians are doing everything possible to prevent the spread of the disease, and it is thought they have same under control.

OPPOSITION FOR JAMES

Judge Isaac Thurman, of Springfield, Well Known Temperance Man, to Run.

Interesting political developments growing out of the fight of the wets and dries in Kentucky may be looked for next year when the election of a United States Senator comes up, according to a well founded report from Louisville.

This report is to the effect that United States Senator Ollie M. James, who will seek re-election, is to have opposition from the dry wing of the Democratic party. The man said to be selected as the champion of the dry Democrats to oppose the senior Senator for the nomination, is Judge Isaac Thurman, of Springfield, whose temperance proclivities are well known in his section and who is said to measure up to the standard of Senatorial timber in ability.

Senator James has not yet made any announcement of his candidacy, but his attitude on the question of State and national prohibition has stamped him as a wet man, and this, it is stated, is why the dry wing of the party has decided to try and shelve him and elect in his place a Senator more in accord with its policy. Whether the next legislature passes the proposed State-wide amendment or not the prohibition issue will be sharply drawn in the coming Senatorial fight, according to the wise ones.

ATTENTION, CITIZENS!

The boys of the city are endeavoring to earn their share of the THIRTY-FIVE MILLION. If you need the services of a boy to clean up your yard, drive your automobile, put away your flowers, wash your automobile, or for any other purpose, call the "Employment Bureau," Phone 122, and Supt. Hopper or Prof. Barnes will send you a boy to do the work after school, or on Saturday.

AN ORDINANCE

Apportioning the Cost of the Construction of Certain Streets in the City of Mt. Sterling, Kentucky, Against the Lots of Land Fronting, Abutting and Bordering on Said Improvements

WHEREAS, the Mayor and Board of Council of the City of Mt. Sterling, Kentucky, by ordinances duly adopted on May 26, 1916, and June 10, 1916, ordered that Sycamore street from the Chesapeake & Ohio Railroad to the south line of Holt avenue, East Main street from the west line of Wilson street to the west side of Willow street and High street from the east line of Broadway to the east line of Elm street, all being public ways of the City of Mt. Sterling, Kentucky, be improved by original construction by paving same with asphalt and constructing curb and gutter thereon in accordance with the plans and specifications therefor duly adopted by the Board of Council, same to be made at the exclusive cost of the owners of the lots and parts of lots fronting or abutting or bordering upon the ground so improved and to be assessed equally by the feet front upon the property fronting or abutting or bordering upon said improvements, payable in ten equal annual installments with interest at the rate of six per cent. per annum on the unpaid portion thereof, and with the option to each owner of said property to pay said assessment in cash at any time within thirty days after the adoption of the ordinance fixing said assessment. And,

WHEREAS, the contract for said improvement was duly awarded by said Board of Council to the Carey-Reed Company and said improvement has been made in accordance with the aforesaid ordinance and specifications and the City Engineer in charge of said work has made a full and correct estimate of the total cost thereof, showing the total number of fronting or abutting feet of property, the cost per abutting foot, the names of the abutting property owners, the number of abutting feet of property owned by each person and the proportionate part of the cost of the improvement to be assessed against the property of each abutting property owner, and has delivered one copy of said estimate to the Chairman of the Street Committee of the Board of Council aforesaid, and another copy to the Mayor of the city aforesaid, and which copy has been transmitted to the Board of Council aforesaid. And,

WHEREAS, upon the receipt of the copy aforesaid from said City Engineer by the Chairman of the street committee said chairman published in the Mt. Sterling Sentinel-Democrat, a weekly newspaper published in the City of Mt. Sterling, Kentucky, and having general circulation therein, a notice that said street committee would meet at the council chamber of the City of Mt. Sterling on November 8, 1917, at the hour of 10 o'clock a. m., for the purpose of inspecting the improvement aforesaid and hearing all interested parties as to whether or not the improvement aforesaid had been done and the cost thereof estimated in accordance with the ordinance and contract therefor, and which notice was published more than three days next before Nov. 8, 1917, in the newspaper aforesaid, and said street committee having made and inspected said work and heard all interested parties at the time and place fixed in the notice aforesaid and having certified to the Board of Council of said city at a regular meeting so held in the council chamber aforesaid on the 8th day of November, 1917, that said work has been done according to the ordinance and contract aforesaid, subject to a deduction of nine hundred dollars for damages for failure to complete same within the time fixed by said contract and same having been received and accepted, and the cost of said work, having been ascertained and determined as required by law, therefore,

BE IT ORDAINED by the Mayor and Board of Council of the City of Mt. Sterling, Kentucky, that the cost of said improvement (and from which cost said deduction of nine hundred dollars has been made), be, and the same is, hereby assessed equally by the feet front upon the property fronting, abutting and bordering upon said improvement and that there be and is hereby assessed against each piece of property hereinafter described the amount respectively set opposite it as follows, to-wit:

German statesmen denounce President Wilson as an autocrat, and attempt to favorably compare their government with this, on the ground that they "have the king's pledge that the general, direct, equal and secret ballot, the most liberal electoral franchise in the world, will now become an institution in Prussia." All very fine and high-sounding, but we might remind our teuton critics that this same "general, direct, equal and secret ballot" has always prevailed in this country, and that it is solidly and unanimously behind our President. Those German statesmen might enlighten the world by stating to just what extent the masses of that unhappy country have

participated in governmental affairs in the PAST and do participate at PRESENT. As for the future participation of those masses, it may be in a manner not at all to the liking of the Prussian statesman.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

TEACH PRACTICAL PATRIOTISM

In seeking for an explanation for the apathy and lack of patriotism manifested in many parts of the country, one is confronted in almost every instance with the one underlying influence—ignorance. Ignorance of American ideals, traditions and principles. Ignorance of the plain duty of every citizen of a beneficent government to preserve and defend the institutions of that government.

In the schools of this country from this time on, a department of practical patriotism should have foremost place. Love of country is not all hereditary. A practical knowledge of all that our country and our government stands for in the lives of its citizens is essential to the development of the highest type of patriotic citizenship.

It is not enough that a people should have a sentimental love for the soil that bred them. Thousands of aliens within our borders, now loyal citizens of our country, have this love. It is noticeable however, that this does not detract from their full allegiance to the government that has received and nurtured them.

There must be more than this to make the true American type. There must be first knowledge—a full realization of the superiority of our institutions; a full appreciation of the great benefits that we as INDIVIDUALS have received and are continually receiving from them. Add to this a carefully cultivated sense of gratitude, and the country will be safe in the hands of its citizens.

In the past years much has been said of the privileges of our land. The time has come when we must emphasize the DUTIES of the people to the government that makes those great privileges.

Teachers and parents of America, its up to YOU.

Vegetarians now have the opportunity of their lives to test the accuracy of their theory.

Nick Romanoff, too, would doubtless appreciate a "place in the sun."

BAR THE GERMAN LANGUAGE.

The Des Moines (Ia.) Capital very sensibly suggest that the United States prohibit the printing of newspapers, books and pamphlets in the German language.

The suggestion is worthy of adoption. And in this connection we would urge the barring of the German language from our schools.

There is absolutely no reason why the children of loyal American parents should be saturated, during the most impressionable period of their lives, with the literature of a nation whose ideas and ideals are so greatly at variance with those of this country as are those of Germany.

There can be no doubt that the dissemination of the German language in this country tends to create a certain sympathy for the people who speak that language. Our sympathies follow our associations to a great extent. It is impossible to acquire a working knowledge of any language without developing sympathy for its people. Just at this time, sympathy for Germany is a misfit in the breast of any American. True there are many German-Americans among us, but the time has come when these must be either flesh or fowl—Americans or Germans. The hyphenated nationality must cease. In plain words, this country has no longer any room for the person of divided allegiance. The German-American must go, and in his place must be either the American or the German.

It may sound harsh to say that our citizens of foreign birth must forswear and forget the land of their birth, but if we are to be a nation, and not a polygot mixture of all races, this is precisely what they must do.

The paper quoted above concludes its article with the assertion that "there is not a loyal German language newspaper in America." The statement may be too strong; but be that as it may, the cultivation of the language affords, to say the least, a

strong cover for disloyalty.

The German-American owes it to himself to become at once and forever an American. When he feels that he cannot do this, he should have the decency to take his person from a country to which he can not give his heart and his whole allegiance.

BUYS JESSAMINE FARMS

Mr. W. T. Swango, of Winchester, and his brother-in-law, Mr. John W. Cecil, of Mt. Sterling, have purchased two farms in Jessamine county that are located about one mile from Nicholasville on the Danville pike. They adjoin each other and are said to be as good as any in the county. Mr. Swango purchased 160 acres at \$33,000 and Mr. Cecil 131 acres for \$27,000.

Since the silver dollar has reached par, Mr. Bryan must feel very much like reminding the world "I told you so."

THE BIRD SEASON.

The quail season will open November 15, and Nimrods in the city and county are already making preparations to make an "advance all along the entire front." Some sections of the county report partridges scarce, while other localities report a pretty fair supply. However, it may be that they are little scarce as compared to the past several years. All persons who have no license and expect to hunt quail should get them before going into the field.

A WORTHY CAUSE

The first thought of every parent is "will my boy come home from the war ALIVE?" The next is, "Will he come home CLEAN?" The Y. M. C. A. movement has as its aim "the morale and comfort of American and Allied soldiers." It has been truthfully said:

"The Army Y. M. C. A. is the answer of the religious and moral forces of the nation to the soldiers' need. With the skill of the expert and backed by years of experience its plans of work have been shaped to fit into the gaps in the lives of the men in arms. Based on the principle of substitution it seeks to drive out evil practices by wholesome recreation, to offset leveling tendencies by high ideals and to give to every soldier the daily witness that somebody cares."

We therefore hope the citizens of Montgomery county will respond quickly and liberally to this, very worthy cause.

DIES FROM WOUNDS.

Lee Willoughby who was shot in a fight in the Jeffersonville neighborhood last Sunday by John Martin died from the effects of his wounds at a Lexington hospital. Martin's bond has been fixed at \$2500 and the charge against him changed to murder. It is reported that Willoughby was shot accidentally.

Marion Martin, who was shot at the same time, was taken to Lexington Sunday by his physician, Dr. Sherman See, as it is feared blood poison has developed. His condition is serious.

SOCIAL EVENTS

Mrs. Henry Prewitt, Jr., entertained the Sewing Circle at her home on the Prewitt pike, Saturday afternoon. A most enjoyable afternoon was spent by all present.

The musical department of the Woman's History Club will render a delightful program at the Presbyterian church on Wednesday, the 21st of November, instead of Thursday, the 15th, as first planned.

Mrs. A. B. Oldham gave an informal luncheon at her home on Howard ave., Nov. 9th, in honor of Miss Mary E. Sweeny, of Lexington. Covers were laid for fourteen; the other guests were the officers and the advisory board of the History Club. The table was artistically decorated in the club colors, yellow and brown. A delicate menu was served, but in strict conformity to Hoover's ideas.

On Nov. 9th an audience which tested the capacity of the Men's Class room of the Christian church, assembled to hear Miss Mary Sweeny, of Lexington, who was brought to our city by the Woman's History Club, to deliver a lecture on the "Food situation and what we can do to help." Miss Sweeny being one of five women in the United States chosen by Mr. Hoover to assist, was thoroughly acquainted with the subject and through her lecture a clearer knowledge of the situation was gained. The earnestness and directness with which she spoke, was very convincing and there is no doubt but that her presence before the club, will awaken the housewives to the necessity of conserving the foods, requested by the government.

VANSANT SELLS FARM.

Dr. J. A. Vansant last week sold his farm of 193 acres, near Sewells shop in this county to Mrs. J. W. Clay and Mr. Cecil S. Greene for \$150 per acre. The farm is in a high state of cultivation and considering the way land is selling in this section this farm sold very cheap. Mr. Greene and family will move to the place to reside March 1st.

BACK FROM CANADA.

Mr. Ben W. Hall returned last week from his ranch near Alberta, Canada where he had spent the last two months harvesting the great wheat crop. Mr. Hall reports the crop very fine. While there he and his brother James B. Hall of Lexington bought another large farm. Land in that section has jumped from \$20 to \$40 and \$50 per acre in the last three years.

SWEET MILK DEPOT

The City Milk Producers Co. has opened a milk depot in this city and to those who call and carry milk home it will be sold at 50 cents per gallon. This is 10 cents less per gallon than is being charged by the local dairymen that deliver the milk to your home.

AN OVERSIGHT.

Last week in giving the list of officers who were elected without opposition in the rush of preparing copy the name of Judge Ben R. Turner was omitted. We regret this oversight and assure the Judge and our readers it was unintentional.

THE SICK

Two of Jas. S. Porter's children have scarlet fever.

Mrs. Chris. Lauth is confined to her home with la-grippe.

Mrs. Albert Stofor, who is ill of pneumonia, is doing as well as could be expected.

Elizabeth Coleman, daughter of Mr. and Mrs. John L. Coleman, is suffering with scarlet fever.

Master John Walsh who has been quite sick is greatly improved and will soon be able to attend school again.

Three children of Mr. Ollie Groves and one child of Mr. Ben Copher of the Stoops neighborhood have scarlet fever.

Henrietta Howell, who has been confined to her home for several days with scarlet fever, is considerably better.

Mrs. John L. McCormick, who was operated on at Mayo Bros., at Rochester, Minn., last week, is getting along nicely.

Mrs. L. L. Bridgforth, who has been confined in a Lexington hospital for several weeks, is not doing as well as her physicians had hoped.

Mr. John L. McCormick who has been ill for several months is at the

home of his daughter Mrs. Frank Chenault at Versailles and his many friends hope the change will be beneficial.

Mr. A. T. Pieratt, of Clark county who has been quite ill for several weeks at the home of his son-in-law, Dr. J. F. Lockhart, has sufficiently recovered to be able to be taken to his home.

Miss Sallie Rogers was taken to Lexington last week and was operated on Sunday, one limb was removed and considering the seriousness of the operation she is doing very well.

Miss Alpha Enoch, who was operated on for appendicitis several days ago, is getting along nicely and it is thought she will be well enough to be brought home the latter part of next week.

Mr. W. A. Sutton, who was taken to Louisville for examination last week, was brought home Sunday and we regret to say that his condition is quite serious. It is thought that he will be taken to Baltimore to be given the radium treatment.

The roof is the last to go on your building; but the selection of an efficient and economical roof is of first importance. If you will use

Certain-teed Roofing

on your building you will get the most efficient roof, and will cut down the cost of the roof materially.

CERTAIN-TEED Roofing is economical to buy, inexpensive to lay, and it costs practically nothing to maintain. It is weathertight, fire retardant, clean, sanitary, and gives the utmost roofing service over a period of years. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

The quality and merit of CERTAIN-TEED have made it the preferable type of roofing for office buildings, hotels, factories, stores, warehouses, garages, farm buildings, etc. If you are building it will be to your interest to investigate CERTAIN-TEED.

There are many roll roofings, but only one CERTAIN-TEED. As it costs no more to lay a CERTAIN-TEED Roof than it does to lay a poor roof, it will pay to get the best, and save on renewals and upkeep. You can't tell the quality of roll roofing by its appearance, or by feeling of it; your only safety is in the label. Be sure it is CERTAIN-TEED.

Certain-teed Slate-Surfaced Asphalt Shingles are supplanting wood and slate shingles for residences. They cost less, are just as good looking, wear better, won't fall off, buckle or split. They are fire retardant, and do not have to be painted or stained.

Certain-teed Paints and Varnishes are made of the best quality materials and mixed by modern machinery to insure uniformity. Made for all uses and in all colors and sizes. Any dealer can get them for you. With paint and varnish, as with roofing, the name CERTAIN-TEED is a guarantee of quality and satisfaction.

THRIFT.

Thrift is a habit. A habit is a thing you do unconsciously or automatically, without thought. We are ruled by our habits. When habits are young they are like lion cubs, soft, fluffy, funny, frolicsome little animals. They grow day by day. Eventually they rule you.

Choose ye this day the habit ye would have to rule over you. The habit of thrift is simply the habit which dictates that you shall earn more than you spend. In other words, thrift is the habit that provides that you shall spend less than

you earn. Take your choice.

If you are a thrifty person, you are happy. When you are earning more than you spend, when you produce more than you consume, your life is a success, and you are filled with courage, animation, ambition, good-will. Then the world is beautiful, for the world is your view of the world and when you are right with yourself, all's right with the world.

Wonderful opportunity to buy your winter supplies at cost.

OBSTRUCTIONISTS.

In ordinary times, times of peace and quietness, the exigencies of government will permit of wide divergence of opinion and much discussion of action and policy of public affairs. As a matter of fact, the cause of popular government is helped and forwarded in the earth by this very latitude.

But these are not ordinary times. They are very extraordinary times, extraordinary proceedings become necessary.

The real patriot, in this emergency, will place not a straw in the way of those charged with carrying out the plans of the government. It matters not the shade of political belief in days past; the man who really has the welfare of his country at heart in this crisis will forget politics and all pertaining to it, and join wholeheartedly in helping in every way to aid the government in the huge task that is facing it.

The truly great men of the nation have already taken this stand. Mr. Taft, Mr. Roosevelt, Mr. Bryan, Mr. Root and scores of other great leaders of public thought have forgotten that they have any political bias and are standing shoulder to shoulder with those in authority in safeguarding the nation. It is only the two-by-four or the secretly disloyal who are endeavoring to thwart the will of the authorities.

We say "will of the authorities" advisedly, because the American people have placed these men in authority and are holding them to a strict account for their very act. President Wilson will have to answer at the bar of public opinion for his every act. That being the case, he should, be given every opportunity to make good.

And it is not only in the halls or Congress that one meets obstructionists. Men in all walks of life can cripple and obstruct the governmental machinery. Every unthinking criticism has its effects. The know-it-all who imagines he could or would do so and so, is as truly obstructing as the member of Congress who openly antagonizes the administration on the floor of house or senate.

We pride ourselves on our willingness to give every man the square deal. Let us put our boast into active practice. We have placed on the leaders of our a terrible responsibility. Let us see to it that they are not prevented, through our unfaithful and ungrateful conduct, from a full discharge of that responsibility.

The man who in this crisis cannot place his country first doesn't deserve a country.

A MT. STERLING INTERVIEW

Nanie Trimble Tells Her Experience

The following brief account of an interview with a Mt. Sterling woman nine years ago, and its sequel, will be read with keen interest by every citizen.

Nanie Trimble, "10 Jamison St., Mt. Sterling, says: "Last fall, I was hardly able to stand on my feet to do my housework. I suffered from an almost constant pain in my left side. I had a dull aching, heavy, bearing-down feeling through my hips and across my kidneys. The way my kidneys were acting caused me a lot of distress. I bloated somewhat in my hands and limbs. I was nervous, tired and sick all the time until I used Doan's Kidney Pills. This medicine greatly benefited me and I soon felt like a different person." (Statement given February 24, 1908.)

On January 6, 1917, Nanie Trimble said: "I am always glad to praise Doan's Kidney Pills. They have helped me wonderfully and whenever I have any sign of kidney trouble now, they never fail to give me relief."

THE MONROE DOCTRINE.

Every now and then we are met by the criticism that in entering the European war we are running counter to the Monroe Doctrine.

These same critics would have us believe that this country has entered the conflict for the purpose of punishing one set of belligerents and avenging another set.

The country should get right on this matter and forever silence the tongues of those who by these arguments would clog the wheels of progress at this time.

Taking the latter count first, this country has no intention of punishing any nation nor of avenging any. It has however a firm determination that the atrocities visited upon Belgium and other invaded countries shall have no chance of a duplication here.

German apologists seem to forget that this country had ample cause for war before war was declared—cause consisting of Germany's aggressions on this country and on its citizens. Many innocent American lives had been sacrificed to her unlawful and outrageous methods, and many indignities suffered, before this country decided to put a stop to them by force of arms.

The wily plea that we are going to war to avenge the wrongs of other peoples will not avail. Could that be established, it would really place us in the attitude of overriding a principle of action that for more than a century has been a veritable beacon star by which we have steered our national course—this same Monroe Doctrine.

We listen with horror to a recital of German atrocities in Belgium, and a thought that such might come to our land and our people will no doubt nerve the arms of our fighting men. But these are in no sense the impelling motive of our action. That action was prompted by a condition that had grown intolerable—a condition of affairs entirely between this country and that, and having no relation to the affairs of any other country or people.

And as the days pass and new chapters are added to the record of German intrigue, we can but marvel that those in authority in our government held their hands as long as they did.

President Wilson has stated the matter clearly—the EARTH must be made safe for democracy. It most certainly is not so now.

HANDSOME MODERN RESIDENCE

—AND—

FINE SOMERSET LIMESTONE FARM LANDS

—FOR SALE AT—

PUBLIC AUCTION

THURSDAY, NOVEMBER 22, 1917,

at 1:30 o'clock p. m., on the premises, two miles from Mt. Sterling, Ky., I will, as agent for Mr. W. E. Little, expose for sale at public outcry his handsome country home and fine Blue Grass limestone farm lands, on Grassy Lick pike. The farm will first be offered in two tracts and then as a whole.

TRACT NO. 1—Contains the handsome and modern residence and improvements and will have about 65 to 67 acres of land. The residence was built about 5 years ago, and cannot be duplicated today for \$12,500. There are nine rooms, two large halls, two bath rooms, linen room, two pantries, large closets and one of the best cellars to be found anywhere. The interior finish is in white and mahogany, has hard wood floors, and is fitted throughout for electricity for lighting, and the plant is installed and is now furnishing electricity for the entire house and large barn. There is a handsome porch across the front and east side with a double porch in the rear that is 10x20 feet and has a cement floor. A large attic is over the entire house. There is in the cellar a complete and up-to-the-minute arrangement for pumping water to all parts of the house and the connections are so simple and arrangements so complete that any child can operate them. On this tract also is a large stock barn, 180 feet long, a large silo, a tenant house, a small barn for stock, a shed for automobile or buggy house, a 12-acre tobacco barn, stripping room, corn crib, large well in the yard, a splendid orchard, rich garden, poultry arrangement and, in fact everything that goes to make up an ideal country home. There is plenty of water on the tract of land, including a large pond, pool, creek and several springs. The fencing on the lines and cross fencing is good. There is about 20 acres in cultivation on this tract, the balance being in Blue Grass sod, with the cultivating land sown to rye, and there is a good stand.

TRACT NO. 2—Fronts the Grassy Lick pike, a good distance running from the Rezin Howell line to a fence on the East and with that fence will run a practical straight line to the rear, and will contain about 65 acres of land. This tract has on it a good tenant house and a stripping room, and about 35 acres of it is in Blue Grass sod, with the balance in corn ground and rye. This tract has good fencing and is watered by three springs and ponds.

Notwithstanding that the farm is one of the best improved in Central Kentucky and is a home of refinement and culture and one that will appeal to those of taste, we want to call especial attention to the land itself. Both tracts contain about 130 acres of land, and all of it is susceptible to cultivation. For years it was used as a stock farm and thousands and thousands of tons of manure was spread all over the soil. Up until three years ago it was all in Blue Grass sod, and it has been handled carefully and cultivated properly and is today as rich and fertile as when made by the Almighty. Practically the entire boundary of the farm will grow tobacco or hemp, or wheat, corn or any other crop. These lands lay on Somerset creek, acknowledged to be the richest section of Montgomery county and one of the richest portions of soil in the United States. There are about 75 acres of this land now in Blue Grass sod, some of which has not been plowed in over half a century, and it is ready for tobacco, but the beauty of the entire farm is that none of it is tobacco tired and all of it will produce the very finest quality of the weed. On either tract you can find enough land to fill a fifteen acre barn for a life time, and we venture the assertion that there is no farm in all the State on which richer soil can be found than on this one. It is seldom that a farm of this character is offered at public auction and if you are in the market for a good home or for land that will pay ten to fifteen per cent on the investment, this is the opportunity of your life here.

TERMS OF SALE—Will be made satisfactory to the purchaser and possession of the farm will be given on March 1, 1918, or sooner if parties agree when sale is made.

REMEMBER THE DAY AND DATE—Thursday, Nov. 22, 1917, at 1:30 o'clock. Sale will be held on the premises. Visit the farm and look it over. Will be glad to show the property to prospective purchasers.

PUBLIC SALE

Farm Land, Live Stock, Implements and Feed

Having decided to dispose of some of my holdings, I will on

Wednesday, November 21

beginning promptly at 10 a. m., at my farm one-half mile from Mt. Sterling on the Hinkston pike, offer at public sale the following property:

1 Sorrel Mare, 5-year-old, safe for lady	1 McCormick Binder
1 Bay Horse, 9-year-old, gentle family horse	1 Tobacco Setter
1 Sorrel Mule, blind, a good one	2 Turning Plows
1 Jersey cow, good one	1 Large Cutting Box
10 2-year-old Steers	Single and Double Shovel Plows
2 Yearling Steers	1 Iron Safe
2 2-year-old Heifers	1 Brooder Coop
3 Yearling Heifers	1 Grocery Counter, good one
1 Yearling Hereford Bull	1 Counter Base of 12 bins, good
2 Steer Calves	6 Grate Facings
3 Heifer Calves	Lot Window Shutters
17 Ewes and 1 good Buck	Derrick Irons, Block Irons, for unloading from cars
1 2-horse Wagon, good one	1 Automobile Delivery Body, a nice one
1 Hay Frame	1 40 h. p. Buick Automobile, in good fix
	2 Gas Stoves

EXTRA FINE BROOD MARE AND GELDING

I will also sell the extra fine brown brood mare, Callie Onward by Time Onward, dam by Caliban, 2d dam by Magic. This mare is the dam of the good race horse J. Forbes (4) 2:09 3-4 and is now in foal to the premier stallion J. Malcolm Forbes (4) 2:08. Also a 4 year old bay horse by Robert C. 2:09 1-4, dam Callie Onward. Robert C. by Peter the Great, out of a Cocoon mare by Cyclone. This colt is a half brother to J. Forbes (4) 2:09 3-4.

A farm of 40 acres in Bath county, all in grass but 10 acres on Slate Creek and Peeled Oak, 1-4 mile from Union church. Bottom land overflows from Slate Creek. Nothing finer than this farm. There are the following improvements on this place: 2 houses, 5 rooms each; 1 four acre tobacco barn, corn crib, smoke house, good apple orchard, one 100 ton silo containing 90 tons of silage that will be sold separate. Ten tons Sweet Clover in barn, has water in feed barn fed from spring and cattle never have to go out for water. One-fifth interest in the Howard's Mill Telephone Co. with telephone line running to farm. This farm is under good fence and one of the best small farms in the state.

S. P. Greenwade

When a man between the ages of 21 and 31 resists the draft, we proceed to handle him without gloves. When a man past 31 works his jaw over time resisting not only the draft, but every measure of self preservation the government has enacted, we pass a resolution to "investigate" his loyalty. We don't like the word "copperhead," but it's the only word that fits, and everybody knows the fate decreed for the serpent.

When your boy sets his face toward France it won't be the foe in front that he will fear, but the enemy in his rear.

As conspicuous examples of German "kultur," we might mention those two million illegitimate German children, brought into the world by decree of the Kaiser. We might also cite recent air attacks on allied hospital bases, on school houses in England, and the latest praise-worthy attempt to reduce the enemy population by dropping poisoned candy throughout the allied territory. Yes, German "kultur" is very desirable—not.

An exchange speaks of "most of the beef at the average man's table." That's a mistake. It ain't there.

That bunch of Congressmen who propose to visit the battle front in France should be careful. The fireworks over there are entirely different from those they are used to in Washington.

Quit wondering when the war will end, and decide when YOU are going to help start it.

It is a historical truth that no industry is destroyed without pulling down some other in its fall. The District of Columbia goes "dry," and now watch the withering of those choice congressional mint beers.

Can You Guess Who?

If you know the name of the star above hand your answer in at The Tabb Wednesday evening, Nov. 14th, between 6:45 and 7:45. A week's pass to each of the three lucky guessers.

Billie Burke's Adventures With the Germans in Belgium.

Wee, winsome Billie Burke personifies independent Young America in Belgium at the outbreak of the present great war in her latest Paramount picture, "Arms and the Girl" which will be shown at The Tabb on Wed., Nov. 14th. Her experiences in this thrilling photoplay are typical of that of thousands of American girls stranded at the outset of the war in Europe, many of whom missed the pleasant adventures that happened to Miss Burke.

The actor playing the dashing young German lieutenant in this picture suffered under a terrible handicap in his acting and the fact that he kept this from the watchful eye of the camera proves his histrionic ability. Being a thorough Britisher, it was difficult to say the least for him to adopt the goose-step and other German military atrocities.

Karl Dietz, an ex-lieutenant of the German army is responsible for the accuracy and correctness of the German army manoeuvres shown in "Arms and the Girls." The famous goose-step, the stiff and frequent salute to superior officers and many other details are shown with the usual care and attention to detail which characterizes all of Director Kaufman's Paramount photoplays.

A Star's Superstition.

"No, I'm not afraid of ghosts or thirteens or opening umbrellas in the house," said Vivian Martin, star of "Little Miss Optimist," which will be shown at The Tabb, Friday, Nov. 16th, "but I have one superstition to which I have clung since childhood. That is carrying a 'lucky dime.' A lot of people, especially theatrical people are very superstitious. They don't believe in whistling in dressing rooms, having two people look into a mirror at the same time, putting a hat on the bed, or lighting three cigarettes from the same match.

"Of course, I'm not exactly superstitious about these things myself, although I don't often do them, but even if I did, nothing would happen. My lucky dime would prevent anything that might happen as a consequence. I've carried it since the night of the first performance of 'Peter Pan' in which, as you know, I followed Maude Adams. The success of that production decided me, and truly, it does seem as if there must be something in it, for ever since then luck has followed me," concluded the star, with her fingers demurely crossed.

Beban, Bear and Bees.

There is one combination that the Pallas studio is not strong for—that is, Beban, bear and bees, which will be seen in this clever Italian character actor's Paramount production of his own story, "A Roadside Impresario"; Mr. Beban having written the story himself, the blame falls entirely upon him. The scenes required that Bruno, the bear, go into a private apiary, tip over several hives full of honey and angry bees, and from there be rescued by the star. Probably at the time he was writing the story, Mr. Beban forgot that bees sting, but it was not long after the bear tipped over the hives that everyone became aware of the fact. "A Roadside Impresario" will be the attraction at The Tabb on Saturday, Nov. 17th.

America Thankful for Blessings Far Better Than Mere Peace of Mind, Is Wilson's Proclamation

President Wilson has issued his 1917 Thanksgiving proclamation calling upon the nation, even in the midst of the sorrow and great peril of a world shaken by war, to thank God for blessings that are better than mere peace of mind and prosperity of enterprise. The proclamation fixing Thursday, November 29, as Thanksgiving Day, follows:

"Thanksgiving—1917, by the President of the United States of America.

A PROCLAMATION

"It has long been the honored custom of our people to turn to the fruitful autumn of the year in praise and thanksgiving to Almighty God for His many blessings and mercies to us as a nation. That custom we can follow now even in the midst of a tragedy of a world shaken by war and immeasurable disaster, in the midst of great sorrow and peril, because even in the midst of the darkness that has gathered about us, we can see the great blessing God has bestowed upon us, blessings that are better than mere peace of mind and prosperity of enterprise.

We Serve Mankind.

"We have been given the opportunity to serve mankind as we once served ourselves in the great days of our declaration of independence, by taking up arms against a tyranny that threatens to master and debase men everywhere and joining with other free peoples in demanding for all the nations of the world that we then demanded and obtained for ourselves. In this day of the revelation of our duty not only to defend our rights as a nation, but to defend also the right of free men throughout the world, there has been vouchsafed us in full and inspiring measure the resolution and spirit of united action.

"And while we render thanks for these things let us pray Almighty God that in all humbleness of spirit we may look always to Him for guidance; that we may be kept constant in the spirit and purpose of service; that by His grace our minds may be directed and our hands strengthened; and that in His good time Liberty and security and peace and the comradeship of a common justice may be vouchsafed all the nations of the earth.

Cease for Prayer.

"Wherefore, I, Woodrow Wilson, President of the United States of America, do hereby designate Thursday, the 29th day of November next, as a day of thanksgiving and prayer, and invite the people throughout the land to cease upon that day from their ordinary occupations and in their several homes and places of worship to render thanks to God, the great Ruler of Nations.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done in the District of Columbia, this Seventh day of November in the Year of Our Lord 1917 and of the independence of the United States of America, the 142nd.

"Woodrow Wilson,

"By the President;

"Robert Lansing, Secretary of State."

The Germans profess to regard the American army as a "negligible force." If they will continue to act on that theory after Pershing and his Sammys get into action they will greatly hasten the end.

That "little handful of willful men" are now busy explaining to their constituents. The people, however, know the answer.

Mr. Morganthau says when the plans for the world war were completed, the Kaiser went on a yachting trip "to allay any possible suspicion." France, however, had one eye open.

Kaiser Bill may have gone to Constantinople to give the Turks a course in "kultur," with a few lessons in frightfulness as incidentals.

TAKES POISON AND DIES.

Mr. Ernest C. Lisle, better known as "Jack" to his host of friends throughout Central Kentucky took strychnine Friday morning and before medical attention could be summoned he passed away.

Deceased was a son of the late Hon. Marcus Lisle, who was for many years a member of Congress from the district to which Clark county belongs. Mr. Lisle was a member of one of the largest and most prominent families of Clark county and was well known and liked by everyone. The news of his sudden death was a shock to his friends. He left a wife and one child. Deceased was 28 years of age. Funeral services were held Sunday afternoon at 2:30 with burial in the Winchester cemetery. No reason was given for his rash act but his friends are sure that he had suddenly lost his mind.

OCTOBER REPORT OF HEALTH AND WELFARE LEAGUE

The Health and Welfare League held its regular monthly meeting last Friday. The board increased the salary of the community nurse, Miss Margaret Frost, to \$85 a month. Following is the report of Miss Frost for the month of October: Number of patients, 27; number of nursing visits, 107; number of social visits, 13; number of business visits, 13; number of surgical cases, 4; number of tuberculosis cases, 2; number of metropolitan cases, 16; number of paid visits, 29; number of patients sent to hospital, 2. Total 136.

Now is the time to get your canned goods. I am selling at cost for cash. Come and investigate.

MAKING SOME PROGRESS

The Community Xmas tree movement started by Miss M. Frost, the Community Nurse, is gaining headway and if all the churches, societies and clubs that have been requested to co-operate with Miss Frost fall into line it is sure to be a huge success. Won't you do your part? A benefit picture show for Thursday the 15th, has been announced and local talent will render some special numbers. Be sure and buy a ticket or two or three.

At Last—A One-Adjustment Cream Separator

BEFORE you buy any cream separator, come in and look at the **Primrose**. One adjustment is all that is necessary to keep it in perfect operating condition at all times. This adjustment is a simple one for keeping the bowl at the correct height—an adjustment that you or your wife can safely make, whenever it's necessary.

The adjustment is made from the outside of the separator by either raising or lowering the bearing containing the hardened steel point, upon which the spindle revolves. A slight turn with a screwdriver, perhaps once a year, does the work.

The **Primrose** is a well constructed, close-shimming, durable cream separator. It will make a saving of \$10.00 to \$15.00 per cow in your herd every year. It is made in four sizes to separate 350 to 850 pounds of milk per hour, or from about 40 to 98 gallons. Ask for a catalogue giving a complete description, or, come in and look over the **Primrose** yourself.

This Big Aluminum Cereal Cooker

We make this One-Week Offer to Housewives here who have not had this Cooker. The cost of Aluminum has doubled. Cooker prices have enormously advanced. But, in fairness to those who missed it last year, we repeat this Dollar Offer.

Cookers Supplied To a Million Homes

We have supplied Quaker Cookers to a million homes at very little prices. But the cost has advanced until our offer is almost impossible.

But grocers tell us that many housewives missed our former offer. They are using Quaker Oats and Pettijohn's, and they want this Aluminum Cooker. In fairness, they should have it.

So we renew this offer for next week only. It applies only to housewives whom we have not supplied already. It applies only to users of Quaker Oats or Pettijohn's, or both. It means twice as much as this Dollar Offer meant two years ago. Get this Cooker next week if you are entitled to it. You owe that to yourself.

Double Cooker
Pure Aluminum
Extra Large and Heavy
Cereal Capacity 2½ Qts.
A Lifetime Utensil

To Rightly Cook Two Famous Dishes

We want every user of Quaker Oats and Pettijohn's to cook these cereals rightly. Right cooking makes them doubly delightful. It keeps the flavor intact. It makes them easy to digest.

This Aluminum Cooker has been made to order to meet exact requirements. It is extra large, so little or much can be cooked in it. It is extra heavy, made to last a lifetime.

This Cooker will next week cost you only \$1, if you send us the trademarks we ask for. This is a costly offer. And we simply want to know, before sending the Cooker, that you are a Quaker Oats user.

This Offer One Week Only

Send us two trademarks (picture of Quaker) cut from packages of Quaker Oats. Also one trademark (picture of bear) cut from the front of one package of Pettijohn's. Or, if you prefer, send five trademarks from Quaker Oats alone. Send us \$1 with these trademarks and we will mail the Cooker by parcel post. Trademarks must be mailed next week. This offer applies to this vicinity only. Address

Quaker Oats Which Saves You 75%

Measured by food value, Quaker Oats costs one-fourth as much as the average mixed diet. So each dollar you spend for Quaker Oats saves an average of \$3. Oats stand supreme among grain foods, in nutrition and in flavor. They form a complete food, supplying every need. As an energy food their fame is proverbial.

Make this the chief breakfast dish. Meat and eggs cost five and six times as much. Also use Quaker Oats in bread and muffins, pancakes and cookies. No other food is so economical.

Use Quaker Oats because of the matchless flavor. It is made of queen grains only—just the big, plump, luscious oats. We get but 10 pounds from a bushel. Yet it costs you no extra price.

Pettijohn's The Laxative Luxury

Pettijohn's Breakfast Food is soft rolled wheat, hiding 25 per cent bran flakes. It is a flavory dainty of which no one ever tires. And it supplies the needed bran. Bran is Nature's laxative. Everybody needs it. Most folks would feel better if they ate it every day.

Fine foods clog the system. Bran supplies the needed roughage. Every doctor, as you know, urges its use, to avoid the need of drugs.

Try it one week. Note the good spirits which result. Never again will you return to a branless diet.

Pettijohn's Flour is another bran dainty. That is 75 per cent white patent flour and 25 per cent bran flakes. Use like Graham flour in any recipe. With these two products every meal can include some bran-made dainty.
